

Protagona

Protagona is a team of passionate technologists who live to see our customers achieve great things by adopting the cloud. We have extensive cloud transformation experience across a multitude of industries. We've seen what works and what doesn't. We love technology, but also recognize that it only goes so far. Truly sustainable change is enabled by complementing solution delivery with a deliberate and balanced focus on the people who will ultimately adopt and own the solution itself. That's why our delivery approach is designed to foster a culture of adoption and ownership.

Leadership pain points we've heard and solved

We're sold on moving to the cloud, but where do we start?

We set a cloud vision and strategy but seem to have stalled in making it happen.

How can we reduce our infrastructure spend?

Are we spending too much on our existing cloud environment?

We need to automate our security, but don't want to lose visibility or control in the process.

We are reactive, focused on daily operations with no time for innovation or training and upskilling.

We've successfully adopted the cloud in parts of the company, but we're struggling with org-wide adoption.

Our Services and Capabilities

 Cloud Acceleration	<ul style="list-style-type: none">• Migration Planning• Landing Zones	<ul style="list-style-type: none">• Cost Optimization• Workload Rationalization	<ul style="list-style-type: none">• App-Driven Migrations• Modern Infrastructure
 App Modernization	<ul style="list-style-type: none">• Containerization• Serverless & Native	<ul style="list-style-type: none">• Re-Architect for the Cloud• API Management	<ul style="list-style-type: none">• Microservices Ecosystems• IoT Enablement
 Data Engineering	<ul style="list-style-type: none">• Data Migrations• Big Data & Data Lakes	<ul style="list-style-type: none">• Data Ops & Analytics• Backup & Restore	<ul style="list-style-type: none">• Pipeline Design & Implementation• Machine Learning

Why Protagona?

- 100% AWS Certified
- Recognized as an AWS Advanced Tier Partner
- Have MSA in place with AWS ProServe
- Eligible for Migration Acceleration Program (MAP) Funding
- We meet customers where they are on their cloud journey
- Training and team development is built into delivery approach
- We work *with* our customers, not just *for* our customers
- [See the great things we've helped customers achieve](#)

Let's have some fun.

Let us know what you're struggling with or what you're trying to accomplish, and we'll get in touch.
